# CUSTOMIZATION

## FINISH TYPE

Each bottle can be provided with various finish options. Available types are listed in product sheets, but others can be provided on demand.

**Types:** cork, vinolok, GPI, GUALA, TO, PP, MCA and others

## BODY

- Full or partial body embossing and creation of private design from a standard shape – one of our semi-finished products on stock.
- Possibility of production of 0.7 and 0.75 l bottles from common blank mould (only blow moulds required).
- We offer direct production in short series with a whole set of moulds, production with common blank moulds and shared blow moulds or shared manufacturing with similar item in combination.  
Share ratios 5:1, 4:2 or 3:3. For 0.5 l bottle that is approximately 25:5k, 20:10k, or 15:15k bottles per day.

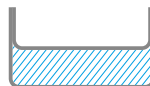

## BOTTOM

In some cases there is an option to alter the bottom of the bottle. Both punt and ice bottom will affect the bottle design and volume.

# HOT END FACILITY

## STANDARD HOT-END SETUP

10 blank moulds  
9 blow moulds

### COMBINATION 5:1

5 stations = 9 blank + 8 blow  
1 station = 3 blank + 2 blow

### COMBINATION 4:2

4 stations = 8 blank + 7 blow  
2 stations = 4 blank + 3 blow

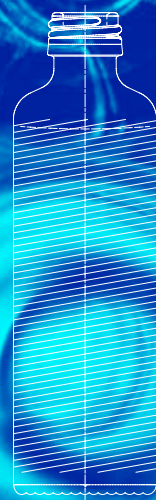

### COMBINATION 3:3

3 stations = 6 blow + 4 blank

## Other production conditions in parallel

- For all square or otherwise shape-demanding bottles, it is necessary to count with one additional blow mould.
- As close as possible shape similarity (typically the same bottles with different embosses) is recommended.
- Weight difference max +/- 15 %
- Each parallel production must be assessed individually.
